

*5th Doctoral Workshop on
Mathematical and Engineering
Methods in Computer Science*

Topics

*software and hardware dependability
computer security
parallel and distributed computing
formal analysis and verification
simulation
testing & diagnostics*

*GRID computing
computer networks
modern hardware and its design
non-traditional computing architectures
quantum computing
and all related areas of theoretical
computer science*

Important Dates

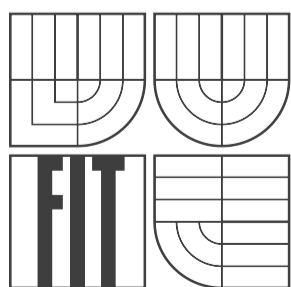

*September 7 • short abstract submission
September 14 • full abstract &
paper submission
October 14 • author notification
October 22 • camera-ready papers*

Organized by

*Faculty of Informatics
Masaryk University, Brno
Faculty of Information Technology
Brno University of Technology*

**November
13 – 15
2009**

**Prestige Hotel
Znojmo • Czechia**
